

FT-Style Javelin

By: Ryan Strout

Plans by: Ryan Strout

i serve hole sizes

are just a suggestion

I used larger

12g metal gear

servos, standard 9g

should be smaller

1	2	3	4
5	6	7	7.5

Fuselage Parts 2

spars

8	10
9	11

tail surfaces

Inches:

CM:

12	13	14	15
16	17	18	19

Wing

20	21	22	23
24	25	26	27

Wing

CG: ~ 3 in from

leading edge of

root

NOTE: CG will likely be

too far forward, add clay

to tail to balance properly.

This is intentional to allow many

battery weights/types

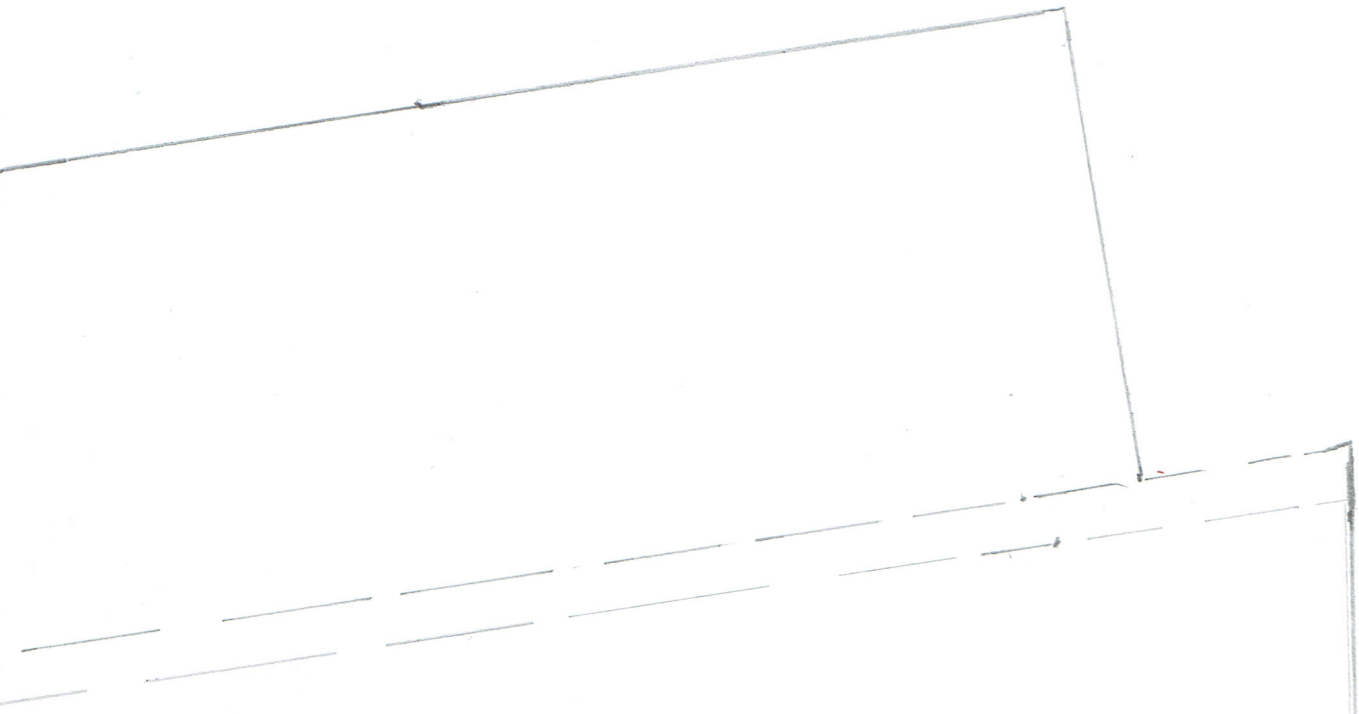

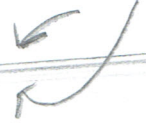

45° Bevel
on outside

Remove Paper
on this section

Leading edge
Double Bevel

Place spar here
